

I just want to let you know that I do not want to loose my K-LOVE radio in casper because of the LPFM and different music broadcast on the station. I know several people in the community who listen to K-LOVE exclusively and it helps us get through the day. I believe all types of music should be on the radio. Another reason to keep KLOVE is because there are plenty of us that listen to it in vehicles with children. I prefer my child does not hear some of the terrible songs that other stations play. To loose KLOVE would be a detriment to the community.
